

# OIPMA Technician Certification of Competency and Limitations (TCCL)

Complete This Training Record For YOUR Office File.

Questions and Answers: Call OIPMA 1-800-615-9813 **DO NOT** MAIL OR FAX THE TCCL Document to PIRC 'Page 1 of 2'

NOTE: "Page 1 records completion of the practical component of the pesticide safety course to become a Technician." Page 2 records specific training.

This document verifies the completion of the practical component of the basic pesticide safety course as a requirement to become a Technician. In addition, this document may also be used to record specific training of a Technician as required by Section 20.2 (3) of Regulation 914 under the *Pesticides Act*. (Note: Parts IA, Part II and Part IV of this form can also be used as a record of training for a Trainee as required under Section 20.2(3) of Regulation 914). MAY BE USED IN LIEU of Appendix B in the Technician Manual.

**PART I:** The person named in **PART I-A** below has, in the opinion of the licensed exterminator named in **PART I-B**, successfully demonstrated the following **MANDATORY** basic practical pesticide safety tasks.

✓ **MANDATORY Basic Practical Pesticide Safety Tasks Demonstrated by the Candidate in the presence of a Licensed Exterminator or in the presence of the PIRC Examiner issuing Technician I.D. Registration Cards**

- 1. Diluting a concentrated pesticide with a solvent:** The candidate must demonstrate the procedures for proper handling, and mixing of a pesticide concentrate by reading and interpreting the information on a pesticide product label. The candidate must demonstrate that he or she can properly put on the appropriate protective clothing and dilute the pesticide for a rate of application stated on a provided label. (Water can be used in this simulated demonstration)
- 2. Correctly applying a pesticide:** The candidate must demonstrate the application of a pesticide in order to control a specific pest and following the application rate and precautions according to label directions.
- 3. Emergency response procedures for equipment:** The candidate must demonstrate the procedure for properly and safely shutting-off power spray equipment or releasing pressure on equipment in the event of a hose rupture or leak.
- 4. Emergency response procedures for pesticide exposure:** The candidate must demonstrate the steps involved when a pesticide has been spilled on to his or her clothing and body to show decontamination and contacting medical assistance. (Water can be used in this simulated demonstration)
- 5. Emergency response procedures for handling a spill:** The candidate must demonstrate containment, clean-up, decontamination and disposal procedure of a minor pesticide spill and the procedure for contacting the supervising licensed exterminator in the event of a major spill. (Water can be used in this simulated demonstration)

**A: Name of Trainee / Technician**

Name: (Print) \_\_\_\_\_ Technician I.D. Card No. PIRC- \_\_\_\_\_  
(leave blank if a Trainee)

Address: \_\_\_\_\_ City: \_\_\_\_\_ Postal Code: \_\_\_\_\_

Signature: \_\_\_\_\_ Birth Date: \_\_\_\_\_ Res. Tel: \_\_\_\_\_

**B: Name of Licensed Exterminator Verifying Basic Practical Pesticide Safety Training:**

Name: (Print) \_\_\_\_\_ Licence No. \_\_\_\_\_

Address: \_\_\_\_\_ City: \_\_\_\_\_ Postal Code \_\_\_\_\_

Signature: \_\_\_\_\_ Date: \_\_\_\_\_

**C: Employer Name: (Print)** \_\_\_\_\_ Operator Lic. No. \_\_\_\_\_  
(if applicable)

Business Mailing Address: \_\_\_\_\_

City: \_\_\_\_\_ Postal Code: \_\_\_\_\_ Tel # \_(\_\_\_\_)\_\_\_\_\_. Fax # \_\_\_\_\_

Signature: \_\_\_\_\_ Date: \_\_\_\_\_
